# COMPANY **VISION & VALUE**

*What we believe in is quality. What we deliver is quality*

## OUR VISION

To emerge as an environmentally sustainable, energy-efficient, and cost-effective packaging solutions manufacturer and exporter. Serving industries across various segments of society. Teknobyte India believes that our responsible actions will progressively affect future generations.

## OUR VALUE

Through our dedicated approach and ability to surpass our clients' expectations, we have achieved numerous accomplishments. Below are some of the several reasons that have determined our enormous corporate status in the international market.

- ▶ Rich experience
- ▶ Ability to meet clients specifications
- ▶ User friendly product range
- ▶ Economical pricing
- ▶ Stringent quality mechanism
- ▶ Sturdy infrastructure
- ▶ Prompt services
- ▶ Strong business ethics.

# OUR ASSURED QUALITY **PRODUCTS**

*To ensure the high quality of our products, we procure raw materials from reliable vendors in the industry. Superior quality of raw materials helps us in laying a strong foundation of our range as well as adds to the product strength and durability. The range offered by us encompasses:*

## **PET PREFORMS**

A preform is an intermediate product that is subsequently blown into a polyethylene terephthalate (PET) container. Preforms vary in neck finish, weight, color, and shape, and are specifically designed to meet the needs of customers in different market segments.

Preforms are manufactured from polyethylene terephthalate (PET), so they are called PET preforms. They are produced by Teknobyte India using a highly-accurate injection molding process on equipment from the leading world vendors.

Due to streamline manufacturing set-up, we control the design resulting in uniform shape and dimensional accuracy of the preforms this contributes to high demand at home and abroad.

## **PET BOTTLES & JARS**

Since 1995, Teknobyte India Pvt. Ltd has been involved in the production of plastic bottles jars on a large scale. We provide a wide range of plastic containers in different shapes and sizes. Most of the bottles & jars that we produce use PET as a raw material. PET is basically a polymer, which stands for Poly-Ethylene terephthalate.

These bottles are commonly used to store all kinds of beverages like carbonated beverages, water, juices, food products as well as personal care products for longer period of time. They generally, possess high degree of resistance and high tensile strength. Their unique qualities and strength make them environmental friendly. These PET bottles can also be recycled and reused, which make them an ideal and trustworthy options for users. These user friendly PET Bottles are mostly transparent in nature but our customers can access them in multiple colours and shapes

## **PETG BOTTLE & JARS**

We are one of the first manufacturers who have started the production of PETG bottles in India. PETG helps us to manufacture bottles and jars which are not possible to be manufactured in existing polymers and infrastructure. Polyethylene terephthalate glycol, known as PETG or PET-G, is a thermoplastic polyester that delivers significant chemical resistance, durability, and formability for manufacturing. PETG is an adaptation of PET (Polyethylene terephthalate) where the 'G' stands for glycol, which is added at a molecular level to offer different chemical properties. PET uses the same monomers as the glycol-modified PETG, but PETG has greater strength and durability, as well as being more impact resistant and better suited to higher temperatures. PETG is safe for use For food containers and bottles for drinks. It is also fully recyclable, which reduces waste and the potential negative environmental impact.

# OUR ASSURED QUALITY PRODUCTS

*To ensure high quality of our products, we procure raw materials from reliable vendors in the industry. Superior quality of raw materials help us in laying a strong foundation of our range as well as adds to the strength and durability. The range offered by us encompasses:*

## HDPE BOTTLES AND JARS

Teknobyte India Pvt. Ltd. is one of the most renowned manufacturers and suppliers of HDPE plastic bottles & Jars globally. This High Density Polyethylene (HDPE) bottles are vastly used to store health sufficient beverages, like milk and juices. Our HDPE bottles are certified under ISO 9001 standards. This ensures the quality of our products.

Unlike, PET bottles these high-density polyethylene bottles are translucent in nature, and are available in multiple colors to enhance their look. Their flexible and impact-resistant nature has made them applicable for different individual purposes, like toilet cleaner bottles and shampoo bottles that contain high chemical content.

Our valuable customers can order these HDPE Bottles in multiple colors, Shapes & sizes.

## PP RESIN

PP stands for polypropylene, and it's one of the most commonly used types of plastic in the world today. You can find PP in all types of plastic goods and plastic packaging, for example in household items such as food packaging, bottle caps, yogurt pots, textiles, and much more. It is also common to find it in more rigid plastics that are easily molded such as garden furniture or automotive materials. PP became popular because of its high strength-to-weight ratio: Whilst high-density polyethylene is known for its high density used in items such as shampoo bottles, recycling bins, plastic carrier bags, and piping. PP plastic is surprisingly sturdy given how light it is. Recyclable PP carries the number five logo. Our range of PP granules is known for

- high colour quality
- purity
- balance composition

## PLASTIC CAP & CLOSURES

We offer a variety of Plastic Caps and Closures, like flip top caps, double flip top caps, and seal caps for different sizes.

All our caps and closures of tubes and bottles are designed by using modern and advanced technologies. Single and double flip top caps containers are seen in personal care products, such as shampoos, face washes, toothpaste, creams, etc.

Our clients can order the flip and seal plastic top caps and closures of different capacities for various tubes and bottles in multiple colors as per their requirements.
